3. PRODUCT DESCRIPTION

PRO POLISH is a stone polish for granite, Quartz and marble counter tops and vanities. Ideal for polished and honed surfaces. Cleans, enhances gloss and silkiness and helps maintain sealer.

Features

- ◆ Improves gloss and slightly enhances colors
- ◆ No apparent superficial film
- ◆ May be applied on stone, Quartz, ceramic, glass, laminate and melamine
- ◆ Maintains penetrating sealer protection
- ◆ Biodegradable – In conformity with OCDE 301 E rule
- ◆ For residential applications

Packaging

Ready-to-Use Formula:

700 mL (23.6 oz) bottle

Recommended Surfaces

- ◆ Polished and honed surfaces
- ◆ Granite
- ◆ Quartz
- ◆ Marble and calcareous stones
- ◆ Ceramic and porcelain tiles
- ◆ Chrome
- ◆ Stainless steel
- ◆ Glass tiles
- ◆ Laminate, melamine
- ◆ Counter tops and vanities

Limitations

- ◆ Best performance at temperature between 15°C (60°F) and 30°C (86°F).
- ◆ For deep cleaning, use concentrate formula full strength.

4. TECHNICAL DATA

Applicable Standards

For Additional Information, please refer to the most recent TCNA handbook for ceramic tile installation or the TTMAC Specification Guide 09 30 00 Tile Installation Manual, or visit our website at www.proma.ca.

PHYSICAL PROPERTIES (@23° C [73° F] and 50% RH)	
VOC content	20 g/L
Odor	Faint
Approximate coverage	Varies with the method of application and the surface condition.
250 mL (8.5 oz)	0.9 m ² (10 ft ²)
946 mL (1 US qt)	3.72 m ² (40 ft ²)
Shelf life	24 months if kept in its original unopened packaging and stored in a dry location with temperatures between 10°C (50°F) to 30°C (86°F). Protect from freezing.

5. USAGE

Prevention Measures

PERSONAL SAFETY

- ◆ Wearing of gloves, safety glasses and appropriate clothing to prevent skin contact when using the product is always recommended.
- ◆ Please follow safety guidelines outlined in the "CAUTION" section indicated on the bottle (see hereunder).

NEIGHBORING AREA PROTECTION

- ◆ Always protect the neighboring working area against unexpected contact with the product to avoid irreversible damage or alterations that could only be restored by its replacement.

PREREQUISITE CONDITIONS

- ◆ Test first on a small and adequate surface, to assess results.

First time user, without preliminary testing.

- ◆ Never use the product for the first time on a large area without preliminary testing.
- ◆ Usage of the product on a sensitive material could alter irreversibly the material that would only be restored by its replacement.

Using the product on a new surface or on an unknown surface, without preliminary testing.

- ◆ Even if you have used the product in the past, because covering manufacturers do modify occasionally the composition of their products, there could be, without your knowledge, addition of an incompatible substance that could be irreversibly damaged or altered and only be restorer by its replacement.
- ◆ Finally, since 2016 we note that some polished Quartz products, Quartzite surfaces and flamed granites are very sensitive to alkaline products. Application of a wax or an acrylic finish by the manufacturers seems to be at the origin of the problem.

Methods of Application

- ◆ Spray directly on the counter top and wipe with a paper towel or a dry cloth. Repeat when necessary.

Disposal

Excess polish may be disposed into sewers.

Health and Safety

Refer to the Safety Data Sheet (SDS) for complete details.

6. AVAILABILITY AND COST

PROMA products are widely available in Canada and the Northeast United States. To find a distributor of PROMA products, call **toll-free: 1.866.51.PROMA (77662)**.

7. WARRANTY

PROMA warrants that this product is manufactured using quality raw materials and is of merchantable quality and suitable for the purpose for which it was intended. PROMA's liability under this warranty shall be limited to the replacement of its product proven to be defective.
