

Conforms to OSHA HazCom 2012 & CPR Standards

SAFETY DATA SHEET

		Product: PRO CEMIX W Revision Date: 2016/07/2
Section 1.	Product and Comp	any Identification
Product Name:	PRO CE	MIX WS
Recommended	Use(s): Rapid c	uring mortar screed
Non-Recomme	nded Use(s): Not spe	cified
Manufacturer:	Proma /	Adhesives, 9801 Boulevard parkway,
	Anjou,	QC, H1J 1P3, Canada
Email:	info@p	roma.ca
Url:		roma.ca
Emergency Cor	ntact: Emerge	ncy Spills (CANUTEC): (613)996-6666 /Emergency contact number in Canada/U.S.A
Section 2.	Hazard Identification	on
GHS Classi	fication for mixture:	
	organ toxicity - repeated ex	posure - Category 2
Specific target	organ toxicity - single expos	sure - Category 3 (Respiratory)
Carcinogenicity	y - Category 1A	
Serious eye da	mage/eye irritation - Catego	pry 1
Skin corrosion,	/irritation - Category 1	
Skin sensitizat	ion - Category 1	
Pictograms		\wedge
Signal Wor	ds: Danger	\mathbf{v}
Hazard Stat	tements:	
Causes severe	skin burns and eye damage	
Causes serious	s eye damage.	
May cause res	piratory irritation.	
May cause can	cer. Route of esposure: resp	iration.
May cause dan	nage to organs through prolo	onged or repeated exposure. Route of exposure: Respiration
Affected organ	: Lungs	
	ary Statements: Gene	eral
Prevention	and understoo	instructions before use. Do not handle until all safety precautions have been read d. Do not breathe dust. Wash hands thoroughly after handling. Wear protective otection and a dust mask.
Response	If exposed or concerned: Get medical advice/attention. Get medical advice if you feel unwell. IF IN EYES: Remove contact lenses, if present and easy to do, rinse with water for several minutes. IF ON SKIN: Rinse with water for several minutes. IF INHALED, Move the person to fresh air. IF INGESTED, call a poison center.	
Storage	Store locked u	
Disposal		, itents/container in accordance with local regulations.
Section 3.	Composition / Info	rmation on Ingredients
Identifiers	Ingredients	Percentage
14808-60-7 65997-15-1	Crystalline silica Portland Cement	<3% <5%
	Calcium Aluminate Cement	<5% <20%
65997-16-2 1317-65-3	Limestone	<10%

Conforms to OSHA HazCom 2012 & CPR Standards

SAFETY DATA SHEET

Section 4. First-Aid Measures

First-Aid: Eyes

IF IN EYES: Wash eyes with plenty of water. Hold eyelids open to ensure adequate flushing. Remove contact lenses if present and easy to do so. Continue rinsing. Seek medical attention if irritation or redness develops.

First-Aid: Skin

IF ON SKIN: Rince with water for several minutes. Take off all contaminated clothing and wash it before reuse. If redness or other symptoms occurs, seek medical advice/attention.

First-Aid: Ingestion

IF INGESTED: Call a poison center. Do not induce vomiting.

First-Aid: Inhalation

IF INHALED: Move the person to fresh air and keep at rest in a position comfortable for breathing. Seek medical attention if symptoms occur.

Section 5. Fire-Fighting Measures

Flammability

The product is not flammable by WHMIS/OSHA criteria.

Suitable Extinguishing Media

Use dry chemical, water spray, carbon dioxide or alcohol-resistant foam.

Unsuitable Extinguishing Media

Not available

Specific Hazards Arising from Combustion of Products

Combustion Products: May include and are not limited to Oxides of carbon (COx). **Heat & Fire:** The product is not flammable or combustible. Fire and heat may decompose the product and generate hazardous gas, vapor or dust.

Protective Measures for Fire-Fighting

Wear protective clothing to prevent contact with skin and eyes completely. Wear self-contained breathing apparatus for firefighting. Avoid direct contact with the substance. Avoid breathing gas, vapor or dust. In the case of large fires, evacuate residents who are downwind of fire.

Specific Hazards Arising from Combustion of Products

Explosion data:

Sensitivity to mechanical impact: Sensitivity to Static discharge: Not available Not available

Conforms to OSHA HazCom 2012 & CPR Standards

SAFETY DATA SHEET

Section 6. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures

Wear protective gloves, clothing and protective goggles to prevent contact with skin and eyes.

Avoid direct contact. Avoid generating dust.

See protective measures in section 7 & 8.

Environmental Precautions

Prevent entry into sewers, water courses, basements or confined areas. Dispose the material in accordance with the government regulation. If the product has entered a water course or sewer or contaminated soil or vegetation, advise the local emergency services and environmental authorities.

Clean-up Procedures

Collect and transfer to a closable container without splash or generating dust / mist. Dispose the material in accordance with the government regulations.

Section 7. Handling and Storage

Precautions for Safe Handling

Handling: Avoid direct contact with the substance. Avoid breathing dust. Keep container tightly closed. Wear protective gloves, clothing and protective goggles to prevent contact with skin and eyes. Ensure there is sufficient ventilation of the area. Do not eat or drink during handling. Report immediately if physical damage, leakage or spillage occurs.

General hygiene advice: Launder contaminated clothing before reuse. Wash any exposed area of body thoroughly after handling before eating, drinking or smoking.

Conditions for Safe Storage

. .

Store locked up. Keep container tightly closed. Store in a well-ventilated area. Keep out of the reach of children. Respect the laws of the safety standards and occupational health.

Section 8. Exposure Controls / Personal Protection

Out date

Occupational Exposure	

	Occupational Exposure Limits	
Ingredients	OSHA-PEL	ACGIH-TLV
Crystalline silica	(10 mg/m ³)/(%SiO ₂ +2) (resp)	0,05 mg/m³ (resp)
	(30 mg/m ³)/(%SiO ₂ +2) (total)	
Portland Cement	5 mg/m ³ (resp), 15 mg/m ³ (total)	1 mg/m³
Calcium Aluminate Cement	5 mg/m ³ (resp), 15 mg/m ³ (total)	5 mg/m ³ (resp), 10 mg/m ³ (total)
Limestone	5 mg/m ³ (resp), 15 mg/m ³ (total)	10 mg/m ³ (total)

Control Parameters / Exposure Controls

Engineering Controls: Use ventilation adequate to keep exposures below recommended exposure limits. (airborne levels of dust, fume, vapor etc.)

Control Parameters / Individual Prot	ective Measures
Eye/Face Protection:	Wear Safety goggles. Don't use eye lens.
Skin and Body Protection:	Wear protective clothing. Wear a dust mask.
Hand Protection:	Wear impermeable gloves.
Respiratory Protection:	If ventilation is inadequate or in the case of mechanical work on cured material or when mixing use an adequate respiratory equipment.

SAFETY DATA SHEET

Section 9. Physical and Chemical Properties		
Basic physical and chemical properties Information		
Physical state: Powder		
Color:	Grey	
Odour:	Odorless	
Odour threshold:	Not available	
pH (in water):	11 to 12	
Melting/freezing point:	Not available	
Boiling point:	Not available	
Flash point:	Non flammable	
Evaporation rate:	Not available	
Flammability:	Non flammable	
•	Not available	
Upper Explosive Limit: Lower Explosive Limit:	Not available	
Vapor pressure:	Not available	
Vapor density:	Not available	
Specific gravity (kg/L):	1,8 Cliebthe estable	
Solubility uncured:	Slightly soluble	
Solubility cured:	Not available	
Octanol/Water coefficient:	Not available	
Auto-ignition temperature:	Not available	
Decomposition temperature:	Not available	
Viscosity (kcPs @ 21°C):	Not available	
Oxidizing Properties:	Not available	
Explosive Properties:	Not available	
VOC content (g/l)	0	
Section 10. Chemical S	tability & Reactivity Info	ormation
Stability/Reactivity		Stable under ambient condition.
Possibility of Hazardous F	Reactions	None
Conditions to Avoid		Incompatible materials.
Materials to Avoid		Strong organic acids.
Hazardous Products of De	composition	May include and are not limited to Oxides of carbon.
	composition	May include and are not innited to oxides of carbon.
Section 11. Toxicologic	al Information	
Toxicological Information	for Product	
Prolonged /Repeated Exposur	e: Prolonged / Repeated exposure	cause damage to lungs and kidneys.
Ingestion: The product is not cla	ssified for ingestion hazard.	
Toxicological Data: No toxicolog	ical data exists for the product.	
Carcinogenicity: This product is	classified as carcinogen 1A becau	se of the existence of crystalline silice above the
thresholds of occupational health.		
Inhalation: May cause respirator	y irritation.	
Toxicological Information	for Component	
-	Limestone	Quartz (SiO2)
Toxicity - Oral	LD50 Rat 6450 mg/kg	LD50 Rat 22,5 g/kg
Toxicity - Dermal	LD50 Rabbit > 2000 mg/kg	LD50 Rabbit > 2000 mg/kg
, Toxicity - Inhalation	LC50 (4h) Rat > 5 mg/L	LC50 (4h) Rat > 20 mg/L
•	. ,	. ,

Conforms to OSHA HazCom 2012 & CPR Standards

SAFETY DATA SHEET

Section 12. Ecolog	jical Information
Ecotoxicity:	No ecotoxicity values for this product. Avoid release into the environment.
Persistence and Degrad	
Bioaccumulative Potential: Not available	
Mobility in Soil: Not available	
Other Adverse Effects: Not available	
Section 13. Dispos	al Considerations
Waste Disposal Regu	ulation(s) / Operation
Avoid release to the enviro	onment. Users need to pay attention to the possible existence of regional or national
regulations regarding dispo	osal.
Section 14. Transp	portation Information [ADR-UN, DOT, ICAO, IMDG, TDGR]
UN Number:	NOT CLASSIFIED AS DANGEROUS GOODS
UN Proper Shipping Nam	ne:
Hazard Class:	
Packing group:	
Section 15. Regula	atory Information
	nvironmental Regulations for Product
No regulation data for proc	
•	nvironmental Regulations for Component
Limestone	- · ·
Canada:	WHMIS Classification: Class D Division 2 Subdivision A - Very toxic material causing other toxic
	effects. DSL / NDSL: Listed on non-domestic substance list (NDSL).
States:	Hazardous Substance Right to know list (RTK): Massachusetts. New Jersey. Pennsylvania.
	Toxic Substances Control Act (TSCA): listed on TSCA inventory
Quartz (SiO2)	
Canada:	WHMIS Classification: Class D Division 2 Subdivision A - Very toxic material causing other toxic
	effects. DSL / NDSL: Listed on the Canadian DSL (Domestic Substance List) inventory.
	Listed on the Canadian Ingredient Disclosure List.
States: Hazardous Substance Right to know list (RTK): Massachusetts. New Jersey. Pennsylvania.	
California-Proposition 65 Carcinogens List: Crystalline silica is know to the State of	
	California to cause cancer.

Ì

SAFETY DATA SHEET

N/Ap:	Not applicable.	
N/Av:	Not available.	
N/D:	Not determined.	
NDSL:	Canadian Non-Domestic Substances List.	
NIOSH:	National Institute for Occupational Safety and Health.	
OSHA:	Occupational Safety and Health Administration, US Department of Labor.	
REL:	A recommended exposure limit (REL) is an occupational exposure limit that has been	
	recommended by the United States National Institute for Occupational Safety and Health to	
	the Occupational Safety and Health Administration (OSHA) for adoption as a permissible	
	exposure limit.	
RTECS:	Registry of Toxic Effects of Chemical Substances.	
SARA:	Superfund Amendments and Reauthorization Act.	
STEL:	A short-term exposure limit (STEL) is the acceptable average exposure over a short period	
	of time, usually 15 minutes as long as the time-weighted average is not exceeded.	
TDGR:	Transportation of Dangerous Goods Regulations.	
TLV:	The threshold limit value of a chemical substance is a level to which it is believed a worker	
	can be exposed day after day for a working lifetime without adverse health effects. Strictly	
	speaking, TLV is a reserved term of the American Conference of Governmental Industrial	
	Hygienists (ACGIH). However, it is sometimes loosely used to refer to other similar	
	concepts used in occupational health and toxicology. TLVs, along with biological exposure	
	indices (BEIs), are published annually by the ACGIH.	
TSCA:	Toxic Substances Control Act.	
TWA:	A time-weighted average is used to calculate a workers daily exposure to a hazardous	
	substance (such as chemicals, dusts, fumes, mists, gases, or vapors) or agent (such as	
	occupational noise), averaged to an 8-hour workday, taking into account the average levels	
	of the substance or agent and the time spent in the area. This is the guideline OSHA uses to	
	determine permissible exposure limits (PELs) and is essential in assessing a worker's	
	exposure and determining what protective measures should be taken.	
UN:	United Nations.
