# SAFETY DATA SHEET

### **Section 4. First-Aid Measures**

## **First-Aid: Eyes**

**IF IN EYES:** Wash eyes with plenty of water. Hold eyelids open to ensure adequate flushing. Remove contact lenses if present and easy to do so. Continue rinsing. Seek medical attention if irritation or redness develops.

#### First-Aid: Skin

IF ON SKIN: Rince with water for several minutes. Take off all contaminated clothing and wash it before reuse. If redness or other symptoms occurs, seek medical advice/attention.

#### **First-Aid: Ingestion**

IF INGESTED: Call a poison center. Do not induce vomiting.

#### **First-Aid: Inhalation**

IF INHALED: Move the person to fresh air and keep at rest in a position comfortable for breathing. Seek medical attention if symptoms occur.

### **Section 5. Fire-Fighting Measures**

Flammability

The product is not flammable by WHMIS/OSHA criteria.

Suitable Extinguishing Media

Use dry chemical, water spray, carbon dioxide or alcohol-resistant foam.

Unsuitable Extinguishing Media

Not available

### Specific Hazards Arising from Combustion of Products

**Combustion Products:** May include and are not limited to Oxides of carbon (COx). **Heat & Fire:** The product is not flammable or combustible. Fire and heat may decompose the product and generate hazardous gas, vapor or dust.

#### **Protective Measures for Fire-Fighting**

Wear protective clothing to prevent contact with skin and eyes completely. Wear self-contained breathing apparatus for firefighting. Avoid direct contact with the substance. Avoid breathing gas, vapor or dust. In the case of large fires, evacuate residents who are downwind of fire.

#### **Specific Hazards Arising from Combustion of Products**

#### Explosion data:

Sensitivity to mechanical impact: Sensitivity to Static discharge: Not available Not available

# SAFETY DATA SHEET

# Section 6. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures

Wear protective gloves, clothing and protective goggles to prevent contact with skin and eyes.

Avoid direct contact. Avoid generating dust.

See protective measures in section 7 & 8.

#### **Environmental Precautions**

Prevent entry into sewers, water courses, basements or confined areas. Dispose the material in accordance with the government regulation. If the product has entered a water course or sewer or contaminated soil or vegetation, advise the local emergency services and environmental authorities.

#### Clean-up Procedures

Collect and transfer to a closable container without splash or generating dust / mist. Dispose the material in accordance with the government regulations.

## Section 7. Handling and Storage

#### **Precautions for Safe Handling**

**Handling:** Avoid direct contact with the substance. Avoid breathing dust. Keep container tightly closed. Wear protective gloves, clothing and protective goggles to prevent contact with skin and eyes. Ensure there is sufficient ventilation of the area. Do not eat or drink during handling. Report immediately if physical damage, leakage or spillage occurs.

**General hygiene advice:** Launder contaminated clothing before reuse. Wash any exposed area of body thoroughly after handling before eating, drinking or smoking.

### **Conditions for Safe Storage**

. .

Store locked up. Keep container tightly closed. Store in a well-ventilated area. Keep out of the reach of children. Respect the laws of the safety standards and occupational health.

## Section 8. Exposure Controls / Personal Protection

Out date

Control Parameters /	Exposure Guideline
	Occupational Exposure Li

	Occupational Exposure Limits	ACGIH-TLV
Ingredients	OSHA-PEL	ACGIH-TLV
Crystalline silica	(10 mg/m <sup>3</sup> )/(%SiO <sub>2</sub> +2) (resp)	0,05 mg/m <sup>3</sup> (resp)
	(30 mg/m <sup>3</sup> )/(%SiO <sub>2</sub> +2) (total)	
Portland Cement	5 mg/m <sup>3</sup> (resp), 15 mg/m <sup>3</sup> (total)	1 mg/m <sup>3</sup>
Calcium Aluminate Cement	5 mg/m <sup>3</sup> (resp), 15 mg/m <sup>3</sup> (total)	5 mg/m <sup>3</sup> (resp), 10 mg/m <sup>3</sup> (total)
Limestone	5 mg/m <sup>3</sup> (resp), 15 mg/m <sup>3</sup> (total)	10 mg/m³ (total)

### **Control Parameters / Exposure Controls**

Engineering Controls: Use ventilation adequate to keep exposures below recommended exposure limits. (airborne levels of dust, fume, vapor etc.)

<b>Control Parameters / Individual Prot</b>	ective Measures	
Eye/Face Protection:	2/Face Protection: Wear Safety goggles. Don't use eye lens.	
Skin and Body Protection:	Wear protective clothing. Wear a dust mask.	
Hand Protection:	Wear impermeable gloves.	
Respiratory Protection:	If ventilation is inadequate or in the case of mechanical work on cured material or when mixing use an adequate respiratory equipment.	

# SAFETY DATA SHEET

Section 9. Physical and Chemical Properties				
Basic physical and chemical properties Information				
Physical state:	Powder			
Color:	Grey			
Odour:	Odorless			
Odour threshold:	Not available			
pH (in water):	11 to 13			
Melting/freezing point:	Not available			
Boiling point:	Not available			
Flash point:	Non flammable			
Evaporation rate:	Not available			
Flammability:	Non flammable			
Upper Explosive Limit:	Not available			
Lower Explosive Limit:	Not available			
Vapor pressure:	Not available			
Vapor density:	Not available			
Specific gravity (kg/L):	1,5			
Solubility uncured:	Slightly soluble			
Solubility cured:	Not available			
Octanol/Water coefficient:	Not available			
Auto-ignition temperature:	Not available			
Decomposition temperature:	Not available			
Viscosity (kcPs @ 21°C):	Not available			
Oxidizing Properties:	Not available			
Explosive Properties:	Not available			
VOC content (g/l)	0			
Section 10. Chemical St	ability & Reactivity Info	rmation		
Stability/Reactivity		Stable under ambient condition.		
Possibility of Hazardous Reactions				
Conditions to Avoid				
Materials to Avoid				
Materials to Avolu		Strong organic acids.		
nazardous Products of De	composition	May include and are not limited to Oxides of carbon.		
Section 11. Toxicological Information				
Toxicological Information	for Product			
Prolonged / Repeated Exposure	Prolonged / Repeated exposure	cause damage to lungs and kidneys.		
Ingestion: The product is not classified for ingestion hazard.				
Toxicological Data: No toxicological data exists for the product.				
Carcinogenicity: This product is classified as carcinogen 1A because of the existence of crystalline silice above the				
thresholds of occupational health.				
Inhalation: May cause respiratory irritation.				
Toxicological Information	for Component			
-	Limestone	Quartz (SiO2)		
Toxicity - Oral	LD50 Rat 6450 mg/kg	LD50 Rat 22,5 g/kg		
Toxicity - Dermal	LD50 Rabbit > 2000 mg/kg	LD50 Rabbit > 2000 mg/kg		
Toxicity - Inhalation	LC50 (4h) Rat > 5 mg/L	LC50 (4h) Rat > 20 mg/L		

# SAFETY DATA SHEET

Section 12. Ecolo	ogical In	formation
Ecotoxicity:	•	No ecotoxicity values for this product. Avoid release into the environment.
Persistence and Degr	adability:	Not available
<b>Bioaccumulative Pote</b>	ntial:	Not available
Mobility in Soil:		Not available
Other Adverse Effects:		Not available
Section 13. Dispo	osal Cor	siderations
Waste Disposal Re	gulation(	s) / Operation
Avoid release to the envi	ironment. U	sers need to pay attention to the possible existence of regional or national
regulations regarding dis	posal.	
Section 14. Trans	sportatio	n Information [ADR-UN, DOT, ICAO, IMDG, TDGR]
UN Number:		NOT CLASSIFIED AS DANGEROUS GOODS
UN Proper Shipping Na	ame:	
Hazard Class:		
Packing group.		
Section 15. Regu	latory In	formation
Safety, Health and	Environm	iental Regulations for Product
No regulation data for pr	oduct.	
Safety, Health and	Environm	iental Regulations for Component
Limestone		
Canada:	WHMIS (	Classification: Class D Division 2 Subdivision A - Very toxic material causing other toxic
	effects.	DSL / NDSL: Listed on non-domestic substance list (NDSL).
States:	Hazardo	us Substance Right to know list (RTK): Massachusetts, New Jersey, Pennsylvania.
	Toxic Su	bstances Control Act (TSCA): listed on TSCA inventory
Quartz (SiO2)		
Canada:	WHMIS (	Classification: Class D Division 2 Subdivision A - Very toxic material causing other toxic
	effects.	DSL / NDSL: Listed on the Canadian DSL (Domestic Substance List) inventory.
	Listed of	the Canadian Ingredient Disclosure List.
States:	Hazardo	us Substance Right to know list (RTK): Massachusetts. New Jersey. Pennsylvania.
	California	a-Proposition 65 Carcinogens List: Crystalline silica is know to the State of
	California	a to cause cancer.

# SAFETY DATA SHEET

·	
N/Ap:	Not applicable.
N/Av:	Not available.
N/D:	Not determined.
NDSL:	Canadian Non-Domestic Substances List.
NIOSH:	National Institute for Occupational Safety and Health.
OSHA:	Occupational Safety and Health Administration, US Department of Labor.
REL:	A recommended exposure limit (REL) is an occupational exposure limit that has been
	recommended by the United States National Institute for Occupational Safety and Health to
	the Occupational Safety and Health Administration (OSHA) for adoption as a permissible
	exposure limit.
RTECS:	Registry of Toxic Effects of Chemical Substances.
SARA:	Superfund Amendments and Reauthorization Act.
STEL:	A short-term exposure limit (STEL) is the acceptable average exposure over a short period
	of time, usually 15 minutes as long as the time-weighted average is not exceeded.
TDGR:	Transportation of Dangerous Goods Regulations.
TLV:	The threshold limit value of a chemical substance is a level to which it is believed a worker
	can be exposed day after day for a working lifetime without adverse health effects. Strictly
	speaking, TLV is a reserved term of the American Conference of Governmental Industrial
	Hygienists (ACGIH). However, it is sometimes loosely used to refer to other similar
	concepts used in occupational health and toxicology. TLVs, along with biological exposure
	indices (BEIs), are published annually by the ACGIH.
TSCA:	Toxic Substances Control Act.
TWA:	A time-weighted average is used to calculate a workers daily exposure to a hazardous
	substance (such as chemicals, dusts, fumes, mists, gases, or vapors) or agent (such as
	occupational noise), averaged to an 8-hour workday, taking into account the average levels
	of the substance or agent and the time spent in the area. This is the guideline OSHA uses to
	determine permissible exposure limits (PELs) and is essential in assessing a worker's
	exposure and determining what protective measures should be taken.
UN:	United Nations.
