Conforms to OSHA HazCom 2012 & CPR Standards

SAFETY DATA SHEET

Section 4. First-Aid Measures

First-Aid: Eyes

IF IN EYES: Wash eyes with plenty of water. Hold eyelids open to ensure adequate flushing. Remove contact lenses if present and easy to do so. Continue rinsing. Seek medical attention if irritation or redness develops.

First-Aid: Skin

IF ON SKIN: Rince with water for several minutes. Take off all contaminated clothing and wash it before reuse. If redness or other symptoms occurs, seek medical advice/attention.

First-Aid: Ingestion

IF INGESTED: Call a poison center. Do not induce vomiting.

First-Aid: Inhalation

IF INHALED: Move the person to fresh air and keep at rest in a position comfortable for breathing. Seek medical attention if symptoms occur.

Section 5. Fire-Fighting Measures

Flammability

The product is not flammable by WHMIS/OSHA criteria.

Suitable Extinguishing Media

Use dry chemical, water spray, carbon dioxide or alcohol-resistant foam.

Unsuitable Extinguishing Media

Not available

Specific Hazards Arising from Combustion of Products

Combustion Products: May include and are not limited to Oxides of carbon (COx). **Heat & Fire:** The product is not flammable or combustible. Fire and heat may decompose the product and generate hazardous gas, vapor or dust.

Protective Measures for Fire-Fighting

Wear protective clothing to prevent contact with skin and eyes completely. Wear self-contained breathing apparatus for firefighting. Avoid direct contact with the substance. Avoid breathing gas, vapor or dust. In the case of large fires, evacuate residents who are downwind of fire.

Specific Hazards Arising from Combustion of Products

Explosion data:

Sensitivity to mechanical impact: Sensitivity to Static discharge: Not available Not available

Conforms to OSHA HazCom 2012 & CPR Standards

SAFETY DATA SHEET

Section 6. Accidental Release Measures

Personal Precautions, Protective Equipment and Emergency Procedures

Wear protective gloves, clothing and protective goggles to prevent contact with skin and eyes.

Avoid direct contact. Avoid generating dust.

See protective measures in section 7 & 8.

Environmental Precautions

Prevent entry into sewers, water courses, basements or confined areas. Dispose the material in accordance with the government regulation. If the product has entered a water course or sewer or contaminated soil or vegetation, advise the local emergency services and environmental authorities.

Clean-up Procedures

Collect and transfer to a closable container without splash or generating dust / mist. Dispose the material in accordance with the government regulations.

Section 7. Handling and Storage

Precautions for Safe Handling

Handling: Avoid direct contact with the substance. Avoid breathing dust. Keep container tightly closed. Wear protective gloves, clothing and protective goggles to prevent contact with skin and eyes. Ensure there is sufficient ventilation of the area. Do not eat or drink during handling. Report immediately if physical damage, leakage or spillage occurs.

General hygiene advice: Launder contaminated clothing before reuse. Wash any exposed area of body thoroughly after handling before eating, drinking or smoking.

Conditions for Safe Storage

a face L Danas

Store locked up. Keep container tightly closed. Store in a well-ventilated area. Keep out of the reach of children. Respect the laws of the safety standards and occupational health.

Section 8. Exposure Controls / Personal Protection

stand / English and Outstalling

| Control Parameters / Ex | bosure Guideline | |
|-------------------------|--|-------------------------------|
| | Occupational Exposure Limits | |
| Ingredients | OSHA-PEL | ACGIH-TLV |
| Crystalline silica | (10 mg/m ³)/(%SiO ₂ +2) (resp) | 0,05 mg/m ³ (resp) |
| | (30 mg/m ³)/(%SiO ₂ +2) (total) | |
| Portland Cement | 5 mg/m ³ (resp), 15 mg/m ³ (total) | 1 mg/m³ |
| i | | |

Control Parameters / Exposure Controls

Engineering Controls: Use ventilation adequate to keep exposures below recommended exposure limits. (airborne levels of dust, fume, vapor etc.)

| Control Parameters / Individual Protective Measures | |
|---|--|
| Eye/Face Protection: | Wear Safety goggles. Don't use eye lens. |
| Skin and Body Protection: | Wear protective clothing. Wear a dust mask. |
| Hand Protection: | Wear impermeable gloves. |
| Respiratory Protection: | If ventilation is inadequate or in the case of mechanical work on cured material or when mixing use an adequate respiratory equipment. |

SAFETY DATA SHEET

| N/Ap: | Not applicable. | |
|--------|---|--|
| N/Av: | Not available. | |
| N/D: | Not determined. | |
| NDSL: | Canadian Non-Domestic Substances List. | |
| NIOSH: | National Institute for Occupational Safety and Health. | |
| OSHA: | Occupational Safety and Health Administration, US Department of Labor. | |
| REL: | A recommended exposure limit (REL) is an occupational exposure limit that has been | |
| | recommended by the United States National Institute for Occupational Safety and Health to | |
| | the Occupational Safety and Health Administration (OSHA) for adoption as a permissible | |
| | exposure limit. | |
| RTECS: | Registry of Toxic Effects of Chemical Substances. | |
| SARA: | Superfund Amendments and Reauthorization Act. | |
| STEL: | A short-term exposure limit (STEL) is the acceptable average exposure over a short period | |
| | of time, usually 15 minutes as long as the time-weighted average is not exceeded. | |
| TDGR: | Transportation of Dangerous Goods Regulations. | |
| TLV: | The threshold limit value of a chemical substance is a level to which it is believed a worker | |
| | can be exposed day after day for a working lifetime without adverse health effects. Strictly | |
| | speaking, TLV is a reserved term of the American Conference of Governmental Industrial | |
| | Hygienists (ACGIH). However, it is sometimes loosely used to refer to other similar | |
| | concepts used in occupational health and toxicology. TLVs, along with biological exposure | |
| | indices (BEIs), are published annually by the ACGIH. | |
| TSCA: | Toxic Substances Control Act. | |
| TWA: | A time-weighted average is used to calculate a workers daily exposure to a hazardous | |
| | substance (such as chemicals, dusts, fumes, mists, gases, or vapors) or agent (such as | |
| | occupational noise), averaged to an 8-hour workday, taking into account the average levels | |
| | of the substance or agent and the time spent in the area. This is the guideline OSHA uses to | |
| | determine permissible exposure limits (PELs) and is essential in assessing a worker's | |
| | exposure and determining what protective measures should be taken. | |
| UN: | United Nations. | |
